

Abstracts selected for the 2017 International Meeting of Pediatric Endocrinology will be presented in oral and poster sessions that will highlight the most outstanding papers.

All accepted abstracts will be published in the official Meeting App, made available electronically via a USB drive to all attendees as well available online.

MEETING REGISTRATION FOR ALL ACCEPTED ABSTRACT SUBMISSIONS:

Authors and presenters will be responsible for all of their own travel expenses and will be required to register for the 2017 International Meeting of Pediatric Endocrinology.

The web site is available 24 hours a day until 2:00pm Eastern Time on March 7, 2017 from any location that has access to the Internet.

ABSTRACT POLICIES AND PROCEDURES

1. **PREPARATION OF ABSTRACTS:** Abstracts must conform exactly to the instructions provided for electronic submission.
2. **PREVIOUSLY PUBLISHED ABSTRACTS:** The meeting will welcome abstracts previously submitted to national or international meetings.
3. **GRADING:** Abstracts will be graded anonymously. Authors should be cautious in using institutional references in the body of the abstracts. Do not put author names or affiliations within the abstract title or the abstract body section.

ABSTRACT PREPARATION

1. **ABSTRACT STYLE:** Please check your abstract carefully for typographical errors, misspellings, poor hyphenation, etc. They will be glaringly apparent in the published abstract.
2. **TITLE:** The title should be brief, but long enough to identify clearly the nature of the study. Use upper and lower case.
3. **ABSTRACT STRUCTURE: WE RECOMMEND YOU COPY AND PASTE FROM A WORD PROCESSING PROGRAM.** The body of the abstract should be organized as follows:
 - A sentence stating the study's objective(s).
 - A brief description of methods.
 - A summary of the results.
 - A statement of conclusions reached. Do not state simply the "the results will be discussed."
4. **ABBREVIATIONS:** Avoid abbreviations in the abstract title. Place nonstandard abbreviations in parentheses after the full word the first time it appears. Use no more than three nonstandard abbreviations.
5. **DRUG NAMES:** Nonproprietary (generic) names in lower case are required the first time a drug is mentioned. Proprietary names are capitalized, e.g. furosemide (Lasix). Abstracts must be prepared according to the guidelines for submission. Those not conforming to the required format may be rejected.
